> **Certified Medicine Aide**

Designed for GNAs to prepare, administer, and chart non-parenteral medications in long-term care facilities.

> **Dental Assistant**

Supports dentist by preparing instruments and materials, maintaining sterilization protocols, organizing trays for procedures, and advising patients on postoperative and general oral care.

> **Nurse Refresher**

Enhances the knowledge and skills of nurses (LPNs and RNs) returning to nursing practice, ensuring their competency and readiness for re-entry into the workforce.

> **Patient Care Technician (PCT)**

Designed for CNAs/GNAs seeking to enhance their skills, including EKGs, venipuncture, IV administration, urinary catheter management, wound/ostomy/splint care, and specimen collection.

> **Phlebotomy Technician**

Works in outpatient labs at hospitals, clinics, or patient centers, specializing in blood collection from patients or donors.

> **Veterinary Assistant**

Skilled in operating medical equipment, administering vaccinations, restraining animals during procedures, providing wound care, and advising clients on pet wellness.

CSM WORKFORCE TRAINING

HEALTHCARE

Medical assistants and support professionals make healthcare possible and help ensure a positive patient experience. There's great and growing demand for assistants and support personnel in healthcare, including some of the nation's fastest-growing careers.

Train for in-demand roles providing patients with exemplary, comprehensive care from teeth to toes, with healthcare certifications from the Maryland Board of Nursing, National Healthcareer Association, and others. Learn in real-world healthcare settings and medical offices and gain practical, on-the-job experience.

CAREER ADVANCEMENT

Build on your knowledge and skills and specialize in administrative management, health information, laboratory science, medical coding, nursing, and other exciting careers, with pathways to your associate degree and beyond.
